

Implementation Assistance Application for Higher Education Institutions

The National Renewable Energy Laboratory (NREL), in support of the U.S. Department of Energy's (DOE) SunShot Initiative, is offering technical assistance to universities seeking to go solar. Successful applicants will be partnered with expert NREL staff to determine the most effective use of assistance in deploying mid-scale solar photovoltaic (PV) technology.

To apply for no-cost assistance for deploying solar on your campus, please save this form to your desktop, fill out the application and return it to Jenny.Heeter@nrel.gov. If your application is selected, NREL will contact you for additional information.

1. Contact information

Name:

Title:

University name:

University address:

Phone:

Email:

2. Describe your campus sustainability, energy, or carbon goals.

3. What are your greatest challenges or needs for support in reaching these goals?

4. Describe your current sustainability efforts. What type and size of on-site generation do you currently have?

What future projects are planned?

5. Which type of assistance are you interested in? (Check one)

Financing a solar project

Procuring a solar project through a power purchase agreement (PPA) or other arrangement

Developing a collaborative procurement with other institutions

Understanding renewable energy certificate (REC) claims and the EPA's Green Power Partnership

Other:

6. Please describe your assistance request in more detail. (200 words or less)
